Summary

Aspiring Full Stack Developer with hands-on experience building scalable web applications using **Java Spring Boot, React.js, and MySQL**. Strong foundation in **Data Structures & Algorithms, REST APIs**, backend development, and problem solving. Passionate about developing efficient software solutions and continuously learning modern technologies.

Technical Skills

Java · JavaScript (ES6+) · **Spring Boot** · Spring Security · Hibernate · JPA · **REST APIs** · **React.js** · HTML5 · CSS3 · Tailwind CSS · Bootstrap · **MySQL** · **Data Structures & Algorithms (DSA)** · Object-Oriented Programming (OOP) · Database Management Systems (DBMS) · Operating Systems (OS) · Computer Networks · **Git** · Maven · Postman · JWT

Experience

Full-Stack Developer Intern

June 2025 – July 2025

Codec Technologies

Remote

- Optimized backend **SQL queries** and database schema, reducing **REST API** response latency by **30–40%**.
- Developed and maintained scalable backend services using **Spring Boot**, adhering to **Layered Architecture** and clean coding principles.
- Resolved complex backend issues using **structured logging** and systematic testing, significantly improving application **stability and reliability**.

Projects

Algolens – Online Coding Platform

Jan 2026 – Present

- Developed a full-stack coding platform using **React.js, JavaScript**, and **Spring Boot** with real-time Java code execution through **JDoodle API** integration.
- Implemented automated test-case validation and dynamic code templates to enhance the coding experience.
- Structured the backend using layered architecture and designed modular React components for smooth interaction between the code editor and result display.
- Integrated the **Gemini API** to analyze code quality and provide feedback on indentation, naming conventions, and coding best practices.

Job Portal – Full Stack Web Application

Apr 2025 – Nov 2025

- Built a multi-user job portal using **React.js, Spring Boot**, and **MySQL** with secure JWT-based authentication and role-based access control (RBAC).
- Optimized MySQL queries and database operations to improve API performance and reduce response latency.
- Enhanced UI responsiveness through efficient state management and optimized API integration.

Education

Manav Rachna International Institute of Research and Studies

2023 – 2027

B.Tech. in Computer Science Engineering

CGPA: 8.5

Certifications

- **Hands-On React Applications with React Hooks** May 2025
- **Java Spring Boot (Infosys)** Nov 2025

Achievements

- Solved **550+ DSA problems** across LeetCode and GFG, demonstrating strong problem-solving skills.
- Researched **Generative AI for Predictive Healthcare**, focusing on early diabetes detection.
- Among the **Top 5%** of students in the university awarded Dean's List honors.
